

Simply Light Composer SLC-USB

Easy entry to the world of Intelligent Lighting

Intelligent lighting control is increasingly becoming a natural element as well as convenience feature in building technology. The Simply Light Composer SLC-USB, a programmable DALI control system completes the Eutrac lighting management offering with a simple and cost-effective solution for smaller projects. A large number of user interfaces allows the design of intelligent lighting management systems for a variety of purpose in small to medium applications with up to 64 DALI devices.

Main features of SLC via USB connection

- User-friendly setting-up: EUTRAC NetComposer software system architecture
- Smart area solution, open programmable
- From single room to bigger areas
- Energy efficiency
- Wide range of interface devices
- Sensors for automatic lighting control options

System limits

- 64 DALI devices with individual addressing supported
- up to 16 groups can be configured
- up to 16 scenes per DALI device can be defined
